Torashima

◆ GOAL:

Supply of "Natural Fully Human Antibody" from peripheral B cells.

1. Affinity: EXCELLENT

Mouse derived << Humanized mouse << Human peripheral B cells
 by SHM (Long sensitization)

2. Safety: VERY SAFE

Mouse derived << Humanized mouse << Human peripheral B cells
 by B cell development phenomena (B cell checkpoint)

3. Clinical trial: Already passed Phase I trial (n = 1) by the donor!

**Why do not you focus on human peripheral B cells?
 Trust yourself, Trust your antibody!!**

Thank you!!
